AEI BECOMES A BOEING LICENSED CONVERSION PROVIDER

MIAMI, FL., --December 15, 2009-- Aeronautical Engineers, Inc. (AEI), is pleased to announce that we have become a Boeing Licensed 3rd Party STC Provider for the 737-200SF, 737-300SF and the 737-400SF Passenger to Freighter Conversions. AEI customers will now be eligible for the lower annual Boeing Technical Support Fee and will enjoy the following benefits;

- Boeing Technical Support Fee of \$50,000 per aircraft per year for fleets fewer than four, with a fleet cap of \$200,000 per year
- Boeing will host AEI's conversion drawings/data on MyBoeing-Fleet.com web portal for one-stop on-line access for aircraft digital data
- Operators can utilize the Boeing field service network and Boeing Communication System to submit service requests
- A "conversion map" will quickly and efficiently determine whether a service request is to be answered by Boeing or AEI
- Boeing will provide data and support to the STC holder in preparing for conversion of aircraft prior to delivery and for the development of AMOC's to future Boeing-issued service bulletins

About AEI

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 50 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 350+ aircraft have been modified with AEI STCs – more than any other conversion provider.
