BOEING SHANGHAI SELECTED AS AEI AUTHORIZED CONVERSION CENTER

MIAMI, FL., --August 24, 2010-- Aeronautical Engineers, Inc. (AEI), is pleased to announce that it has selected Boeing Shanghai Aviation Services Co., LTD. as its third AEI Authorized Conversion Center (AACC). Boeing Shanghai will provide 737-300SF & 737-400SF Passenger to Freighter Conversions and Maintenance for AEI customers based in China and Eurasia. Boeing Shanghai joins a growing number of AEI Authorized Conversion Centers which include Commercial Jet, Inc. based in Miami Florida and Flightstar Aircraft Services, Inc. based in Jacksonville Florida.

Mr. Robert T. Convey, Vice President of Sales & Marketing for AEI stated that “It was critical that we selected a conversion partner in China that exemplified the same dedication towards quality, customer service, product improvement and cost effective operations as we do. After an exhaustive search, Boeing Shanghai was the clear choice as our conversion partner for China and the rapidly growing Asia Pacific region. From its seasoned Executive team to its highly trained work force to its new state of the art facility, Boeing Shanghai is ready to begin extending the life of the Boeing 737 classic fleet.”

Mr. Bernard Hensey, Chief Executive Officer for Boeing Shanghai stated that “We are delighted we have reached this important milestone with one of the preeminent aircraft modification companies in the world. We look forward to a long and mutually beneficial relationship with AEI.”

Boeing Shanghai will initially open one production line capable of converting six (6) AEI 737SF aircraft annually with the first 737 expected to enter into conversion in the 4th quarter of 2010.

Boeing Shanghai was established in June 2006 as a joint venture of Boeing, Shanghai Airport Authorities and Shanghai Airlines. The mission of Boeing Shanghai is to provide high-quality modification, maintenance, repair and overhaul services to regional and international airlines as well as to domestic Chinese airlines.

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 50 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 350+ aircraft have been modified with AEI STCs – more than any other conversion provider.
