AEI RECEIVES BRAZILIAN STC FOR 737-300/-400

MIAMI, FL., -- August 20, 2009, Aeronautical Engineers, Inc. (AEI) has been granted approval of its B737-300/-400 passenger to freighter conversion STC by the Brazilian Agencia Nacional de Aviacao Civil (CHST # 2008S09-09).

The STC was first issued by the US FAA on September 16, 2005 for B737-300 series aircraft and was amended to add the B737-400 on August 21, 2007. The STC has also been approved by the European Aviation Safety Agency (EASA) and the Chinese CAAC. The AEI B737-300 freighter has nine 88x125" pallet position and the AEI B737-400 freighter has ten 88x125" pallet positions, with position weights up to 8,000 lbs. The conversion program is fully matured with aircraft flying worldwide.

"The addition of the Brazilian STC is a prime example of our commitment to continuously adding value to our conversion products," said Roy Sandri, president. "Our 737-200, 737-300 and 737-400 conversions have been approved by more foreign airworthiness authorities than any other 737 conversion currently being offered."

AEI offers a comprehensive package of conversion services that includes engineering, manufacturing, installation, maintenance and support. This coordinated approach provides AEI's customers with accelerated project schedules, improved quality and single-source accountability.

About AEI

Formed in 1958, Aeronautical Engineers Inc. (AEI) is the oldest conversion company in existence today. For more than 50 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 350+ aircraft have been modified with AEI STCs – more than any other conversion provider.
