**For Immediate Release**

### **EASA APPROVES AEI B737-400 PASSENGER TO FREIGHTER CONVERSION STC**

Aeronautical Engineers, Inc. (AEI) of Miami Florida has been granted approval of its B737-400 passenger to freighter STC by the European Aviation Safety Agency (EASA) on February 22, 2008. AEI's STC meets all current EASA requirements. The STC was originally issued by the FAA on August 21, 2007. The design allows for ten 88x125" pallet positions and position weights up to 8,000 lbs. The launch aircraft was leased by RPK Capital Management, LLC to Flyant and is based in Spain.

#### **About AEI**

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 50 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 350+ aircraft have been modified with AEI STCs – more than any other conversion provider.
