### AEI Announces 2022 Year-end Recap

**Miami, Florida – January 16<sup>th</sup>, 2023** – Aeronautical Engineers, Inc. (AEI) announced today that the company delivered a total of 41 freighters in 2022 to leasing and airline customers around the world. The B737-800SF accounted for the majority of deliveries, representing a total of 31. The remainder of the freighters delivered were a mix of B737-400SF, CRJ-200 SF and MD-80SF series aircraft.

Based on current order backlogs, AEI estimates the company will deliver approximately 44 freighters in 2023, with the B737-800SF again accounting for most deliveries. AEI's other active freighter programs continue to produce steady numbers. The company estimates it will deliver four B737-400SFs, four CRJ-200 SFs and four MD-80SF series freighters in 2023.

“We are very pleased with the strong number of orders for our B737-800SF freighter conversion,” said Robert T. Convey, AEI senior vice president of sales and marketing. “Given the current uncertainty in the economic environment, we do however expect the annual pace of freighter deliveries to settle a bit after 2023.”

To obtain a complete listing of 2022 AEI delivered freighters, including serial numbers and aircraft type, please contact Robert Convey at [rconvey@aeronautical-engineers.com](mailto:rconvey@aeronautical-engineers.com)

### About AEI

Aeronautical Engineers, Inc. (AEI) is the global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 130 Supplemental Type Certificates (STCs) and has modified over 550 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible

product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-800, 737-400, 737-300, MD-80 series, and CRJ200 aircraft. <https://www.aeronautical-engineers.com/>
