AEI Completes 600th Freighter Conversion

Miami, Florida – August 21st, 2023 – Aeronautical Engineers, Inc. (AEI) today announced it has completed its 600th freighter conversion. The aircraft tied to this milestone is a 737-800 owned by [GA Telesis](#) (MSN 28235). Since 1958, AEI has been designing, developing, and modifying narrowbody freighter aircraft for the world's air cargo industry. Over the company's 65-year history, AEI has provided the global market with dependable and flexible freighter products ranging from the DC6 and CV440 to hugely popular programs, including the B727-200SF, B737-400SF, and B737-800SF.

"We are thrilled to reach this milestone and couldn't have made it without the dedication of our employees, the responsiveness of our vendor partners, and the trust earned from our customers," stated Roy Sandri, AEI's president. "By consistently delivering robust and reliable freighter conversion products, AEI has grown to become the most widely recognized and respected independent conversion company in the industry."

The 600th freighter conversion was modified by Commercial Jet Inc.'s Miami, Florida facility. Commercial Jet Inc. is AEI's longest serving modification partner with expertise gained through the conversion of hundreds of aircraft. AEI also has multiple authorized AEI Conversion Centers located around the world to better serve its extensive list of global aircraft owners and operators.

About AEI

Aeronautical Engineers, Inc. (AEI) is the global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 130 Supplemental Type Certificates (STCs) and has modified over 600 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-800, 737-400, 737-300, MD-80 series, and CRJ200 aircraft. <https://www.aeronautical-engineers.com/>
