

# ETOPS

Yep, we've got you covered

AEI's B737-800SF is now ETOPS 180 approved, meaning you get even more utility from an already highly productive freighter. Our robust list of forward-thinking features and advantages keeps growing.

From substantial Main Deck Cargo Door forward jamb clearance, dual door actuators and the largest supernumerary area in the industry, to our ability to convert virtually any B737-800, including early and late line numbers and aircraft with split scimitar winglets, AEI has your freighter needs covered.
