### **AEI Announces Four Additional B737-400SF Freighter Conversions for Aeronaves T.S.M.**

**Miami, Florida – March 29th, 2021** – Aeronautical Engineers, Inc. (AEI) is pleased to announce that Saltillo, Mexico-based Aeronaves T.S.M. S.A. de C.V. (TSM) has ordered four additional AEI B737-400SF freighter conversions. This order follows the announcement of two more AEI B737-400SF freighter conversions ordered by TSM in early March. Upon completion of this order, TSM will operate a total of seven AEI B737-400SF freighter conversions.

Production slots and aircraft MSNs for this order have yet to be announced, however, all modification labor will be performed by the authorized AEI Conversion Center, Commercial Jet, in Dothan, Alabama.

The B737-400SF remains a popular freighter product offering for AEI. Since program launch, the company has redelivered over 120 freighter conversions – 7 were redelivered in 2020.

AEI's B737-400SF shall provide TSM with a highly flexible Ancra CLS capable of carrying multiple ULD's including:

(10) 88"x125" ULDs in P1 to P10 and

(1) 53"x88"x64" Pallet or AEP/AEH or 60.4"x61.5" AKE/LD3 or 61.5"x88"x56"H AYY in P11

This unique flexibility has been designed by AEI to allow cargo operators to immediately adapt to multiple ULD configurations at a moment's notice. When combined with proven reliability, the AEI Converted B737-400SF will allow TSM to keep their aircraft – **"In the air, generating revenue"**.

## **About AEI**

Aeronautical Engineers, Inc. (AEI) is a global leader in the aircraft passenger-to-freighter conversion business and is the oldest conversion company in existence today. Since the company's founding in 1958, AEI has developed over 130 Supplemental Type Certificates (STCs) and has modified over 510 aircraft with the STCs. AEI helps its customers extend aircraft life and increase the overall value of aircraft assets by continuously focusing on dependable and flexible product offerings. AEI currently offers passenger-to-freighter conversions for the Boeing 737-800, 737-400, 737-300, MD-80 series, and CRJ200 aircraft.
